## SUMMARY

Experienced Frontend Developer specializing in **Next.js/React/TypeScript**, building fast, accessible UIs and reusable component systems. Passionate about creating scalable, user-friendly web applications with clean functionality and polished, modern design. Strong collaboration with design/product; comfortable shipping features end-to-end.

🎒 **Selft-taught**    🎨 **Creative**    ⚒ **Versatile**    ⚙ **Persevering**

## EXPERIENCE

### Frontend Developer  @ Care
*# August 2022 - March 2025*

- Built and enhanced product features based on detailed requirements using React.js and its ecosystem.
- Maintained and refactored the codebase to improve reusability and long-term maintainability.
- Worked closely with the design team, providing feedback to improve UX and ensure high-quality UI implementation.
- Participated in knowledge-sharing sessions to foster an active learning culture.
- Updated and replaced packages/libraries to keep the codebase up to date
- Developed and maintained shared libraries and internal frameworks.
- Troubleshot issues promptly as they were identified.
- Supported cross-team initiatives when needed, helping deliver tasks during resource constraints.

### Frontend Developer & Product Owner  @ C2C Techhub
*# November 2020 - July 2022*

**Frontend developer**

- Wrote, reviewed, and maintained code to build functional, scalable, and user-friendly web applications using technologies such as React.js, Next.js, Redux-Saga, JavaScript, TypeScript, HTML, and CSS.
- Ensured web applications perform well across platforms and browsers.
- Troubleshot issues as soon as they are identified.
- Collaborated with developers, designers, and stakeholders.
- Followed SEO best practices.

**Product owner**

- Identified product requirements, defined user stories that met those requirements, and created a product backlog.
- Prioritized product backlog, ensuring tasks were assigned and completed according to the customer's vision and goals.
- Monitored each phase of the product development lifecycle, from planning to maintenance.
- Followed the SCRUM development process.

### Freelance Full-stack Developer  @ Freelancer
*# April 2020 - October 2021*

- Gained hands-on experience while learning programming independently by working as a freelance full-stack developer.
- Built a shopping website which can be visited at https://macadamia-vanphuc.web.app/
- Built a news website which can be visited at https://my-rainbow-f2cdf.web.app/

### Founder  @ fetchEnglish
*# Sept 2019 - Present*

- Founded FetchEnglish, an online learning platform offering courses for English learners.
- Built fetchEnglish.com after completing an online web development course on Udemy.

### Teacher  @ Viet Uc Language School
*# June 2012 - June 2020*

- Designed and delivered creative, practical lessons that were both educational and engaging.
- Helped many students achieve high scores in Cambridge and IELTS exams.
- Organized teacher training workshops and created tests and other reference materials.

### Loan officer (Retail Banking)  @ Standard Chartered Bank
*# Mar - Sept 2011*

- Gave financial advice and assisted customers in preparing necessary documents relating to their loans.

## Education

### BA in Business English and Master's in Banking and Finance

@ Banking University of Ho Chi Minh city

*# Sept 2006 - April 2015*
